

John F. Wade has a B.S. degree in mathematics from Louisiana State University and a M.A. degree in mathematics from Duke University. He is a Fellow of the Society of Actuaries and an Enrolled Actuary. He became the Manager of Actuarial Services at NRECA in 1989, where he is currently Vice President Retirement Programs & Chief Actuary. Prior to joining NRECA, he was employed as an actuary at IRS, where he was a Group Chief in the Pension Actuarial Branch. He was previously employed as an actuary with an actuarial consulting firm, providing actuarial consulting services to clients on pensions and employee benefits.
